Berke Kanber *Software Developer*

✉ berkekanber@gmail.com   📍 İzmir   ⭘ github.com/chefberke   🔗 berkekanber.com

Summary

As a Software Developer with hands-on experience across the full stack, I build scalable, efficient, and user-focused applications. Proficient in modern frontend frameworks like React and Next.js, as well as backend technologies such as Node.js and Express. Passionate about clean code, system architecture, and solving real-world problems with thoughtful, maintainable solutions. Continuously learning and adapting to new technologies to deliver high-quality, production-ready software.

Projects

Üniversite Değerlendir ⌴
University Rate App
Anonymous university rating platform for Turkiye, enabling users to leave ratings and comments while ensuring privacy. Developed an intuitive, accessible UI for seamless user interaction.

git.cow ⌴
Github Profile Analytics
Git Cow is an advanced web application designed to provide developers with efficient insights into their GitHub activity and project performance metrics.

Spotiwrap ⌴
Spotify Tracks App
Developed a web application leveraging the Spotify API to deliver personalized insights into users' listening habits, featuring top tracks, artists, and genres, complemented by dynamic visualizations and shareable summaries.

Lumi Kanban ⌴
Kanban Board
Developed a task management interface with drag-and-drop capabilities, a responsive UI adaptable to multiple workflows, and real-time updates to facilitate collaborative work.

Volunteer Experience

Software Developer   09/2024 – present
Lumi Works   Remote, Turkiye
Worked on Lumi Works, an open-source initiative building web and mobile
applications, contributing to development and design in a collaborative team.

Education

Computer Programming   09/2023 – 06/2025
Izmir University of Economics   İzmir, Turkiye
